We will also be asking for the following from each coach before the Coaching Academy:

1. Top 3 desired points of focus?
2. What position do you coach?
3. What do you coach?: Kitted / Flag / Tag
4. Who do you coach? Adult / youth (what age range)
5. Number of years coaching?

We would then tailor the days schedule and content as much as possible to address the requested topics of focus.

We are also planning on a running a session after lunch where all eight US coaches will be available to be approached and asked any question you have, especially if the topic you would like to learn about is not covered during the days schedule.

The afternoon sessions will be held on the field and will be shaped around the morning classroom subjects and areas of interest based on coaches 'desired points of focus' feedback.

Your pre-requested topics for discussion will help prepare the coaches for possible questions that maybe asked during the outdoor practical session in the afternoon.

Our aim is that this more customised approach will allow coaches to learn more and make the most from this unique opportunity.
